

The New Mexico Regulation and Licensing Department in consultation with the Advisory Board of Respiratory Care Practitioners approved the repeal of 16.23.16 NMAC, Disciplinary Proceedings (filed 12/30/2002). The sections outlining disciplinary proceedings have been consolidated with Part 17 and the definitions section of this rule was moved to Part 1. The purpose of the consolidation and integration is to provide consolidated reference for disciplinary proceedings and to reduce ambiguities and inconsistencies in the rule requirements effective xx/xx/20xx.
