

The New Mexico Regulation and Licensing Department in consultation with the Advisory Board of Respiratory Care Practitioners approved the repeal of 16.23.8 NMAC, Renewal and Expiration of Practitioner License (filed 6/15/2017). All provisions for the renewal and expiration of practitioner licenses have been consolidated into Part 3. The purpose of the consolidation and integration is to provide an integrated reference to all requirements for a practitioner license and to reduce ambiguities and inconsistencies in the rule requirements effective xx/xx20xx.
