

The New Mexico Regulation and Licensing Department in consultation with the Advisory Board of Respiratory Care Practitioners approved the repeal of 16.23.9 NMAC, Inactive Status for Practitioner License (filed 6/15/2017). All provision required to place a practitioner license on inactive status have been consolidated into Part 3. The purpose of the consolidation and integration is to provide an integrated reference to all requirements for a practitioner license and to reduce ambiguities and inconsistencies in the rule requirements effective xx/xx/20xx.
