Master's social work practice requires the application of specialized knowledge and advanced practice skills in the areas of assessment, treatment planning, implementation and evaluation, case management, information and referral, counseling, supervision, consultation, education, research, advocacy, community organization and the development, implementation and administration of policies, programs and activities. The practice of master's social work may include the practice of clinical social work under appropriate clinical social work supervision. The LMSW is able to explain and interpret the results of psychosocial evaluations in the problem-solving process. The LMSW is able to supervise LBSWs and practice in the areas of social work administration, community organization and policy analysis.
