

Dental Therapist Collaborative Management Agreement

1. A dental therapist may practice only under the supervision and authorization of a dentist licensed New Mexico, and only through an online practice agreement signed by both the dentist and the dental therapist, and on file at the board office. A dental therapist may provide only the services outlined in this agreement, at the supervision levels detailed in this agreement. A dental therapist who provides services or procedures beyond those authorized in the written practice agreement engages in unprofessional conduct for the purposes of sections 16.5.65 and 16.5.66 NMAC.
2. Has the dental therapist completed a dental therapy post-graduate experience as defined in 16.5.65.7(C) yes no
3. What procedures within 16.5.65.8 is the dental therapist able to perform under general supervision in this clinical setting?
4. What procedures within 16.5.65.8 is the dental therapist able to perform under indirect supervision in this clinical setting?
5. What procedures within 16.5.65.8 is the dental therapist with post-graduate clinical experience able to perform in this clinical setting?
6. May the dental therapist treat a patient prior to the supervising dentist's examination or diagnosis in this clinical setting? Yes no
7. Has the dental therapist and supervising dentist read the limitations of practice as defined in 16.5.65.9? yes no
8. Describe the practice setting, location and address of the dental clinic:
9. Describe the parameters of care that may be provided by the dental therapist within the scope of practice prior to the dentist examining the patient:
10. Describe a protocol to manage medical emergencies in each setting where the therapist provides care:
11. Describe protocols for administering and dispensing medications:
12. Dental therapy practice agreements must be signed and maintained by the supervising dentist(s) and the dental therapist and renewed whenever there is any change in the agreement, including but not limited to, a dentist or dental therapist that has left the practice or organization, any change in employment or ownership that affects the relationship between the dental therapist and the supervising dentist, or similar. The agreement shall be updated via the board template and on file with the board office. Electronic signatures are required.
13. A supervising dentist cannot supervise more than three dental therapists at one time during clinical hours.
14. Agree to dental therapy sections 16.5.60 through 16.5.66 NMAC.
