

January 31, 2024

Dear Licensees,

The New Mexico Regulation and Licensing Department, Alcoholic Beverage Control Division (ABC) would like to wish you all a Happy New Year. With 2024 underway, ABC is excited to announce that we will be modernizing our licensing and permitting processes.

ABC is establishing a new system for members of both the liquor industry and tobacco products industry to conduct all applications, renewals, and payments online. The completion of this project is intended to benefit applicants and licensees as well as assist ABC in its duties established by both the Liquor Control Act and Tobacco Products Act. For the time being, everything is business as usual, however, we did want to make all licensees aware of upcoming changes.

In order to successfully launch the new licensing and permitting platform ABC will need the assistance of all current licensees. Throughout the first half of this year, ABC will be sending emails and notices, like this one, asking that you provide additional information. Some of this information will be requested so ABC may verify all information we possess is up to date and complete. Other information requested will be information ABC has not requested from applicants or licensees before.

Additionally, you will be receiving periodic updates from ABC on any changes made to the procedures of applying for and renewing licenses with the division.

Thank you for your understanding and cooperation while ABC partakes in this new endeavor.

Sincerely,

Phillip A. Sanchez

Director

Alcoholic Beverage Control Division
