Distinguished members of the New Mexico Board of Acupuncture and Oriental Medicine :

As an Acudetox Specialists (CADS) with over 10 years of practice, I strongly recommend and support that the policy requiring CADS to have a supervisor be changed so that it not be required after being certified and having successfully practiced 5 years or more of this technique which has proven to be effective for persons who benefit from this therapy. The service benefits our communities, especially those limited in health services provision in rural areas.

Your consideration of this matter would be greatly appreciated by those who provide the services as well as the communities we serve or can potentially serve.

Sincerely,

Isaac Treviño Jr., LMSW, CADS

Las Cruces, NM
